

# Achraf El Fadili

Full-Stack Engineer • UI/UX Designer

## WORK EXPERIENCE

### Software Engineer / Lynck Tech Solutions

MAR 2024 - PRESENT Full time • Remote

- During my time at Lynck Tech Solutions i was in charge of software design and development of Web3 Apps and solutions.
- Also maintaining some existing decentralized applications.

### Full-Stack Developer / Walio

APR 2023 - MAR 2024 Full time • Remote

- I contributed as a full-stack developer at Walio in building a crypto payment gateway. My role involved developing and integrating key features across the platform server and client side.

### Full-Stack Developer and UI/UX Designer / Self-employed

OCT 2018 - JAN 2023 Freelance • Hybrid

- Developed 20+ projects over the course of 5 years as a self-employed full stack developer and UI/UX designer.
- During this phase i worked in various projects in multiple roles ranging from designing solutions to development and execution

### Frontend Developer and UI/UX Designer / Sekera Group

MAY 2020 - JUN 2022 Part time • Hybrid

- Over two years, I was part of 3 (SecDojo, Sekera, Scylla) projects both as designer and developer, mainly focusing on the front-end.
- I designed the interface for a Cyber-Range Infrastructure-As-Code platform in the cloud that provides an integrated cyber learning environment for +6000 active user.

### Software Developer / BTP Compact

JUL 2018 - JUL 2019 Internship • On-site

- I was tasked with designing a management solution to synchronize employees and customers data across 4 branches.
- I implemented the solution as a desktop app with a centralized database, which helped in cutting down an important part of paper work.

## EDUCATION

### Master's degree, Computer Science / 1337 Coding School

OCT 2019 - PRESENT Ben Guerir

- At 1337 coding school, I honed my skills in software development through an intensive, project-based curriculum that emphasized peer-to-peer learning and real-world problem-solving.

### Associate's degree, Computer Science / ISTA OFPPT

SEP 2017 - JUL 2019 Agadir

- During my two years period at the Specialized Institute of Applied Technology I pursued studies in software development, where I gained a strong foundation in programming and application development.
